I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

Cir. 1999), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims, specifically in

claim 2, at least the combination including the limitation of: "creating a list of possible compression methods";

claim 3 at least the combination including the limitation of: "determining the amount of bandwidth a customer can use";

claim 4 at least the combination including the limitation of: "computing an average event size based on a customer budget";

claim 5 at least the combination including the limitation of: "computing a weighted average event size based on a probability distribution curve";

claim 8 at least the combination including the limitation of: "generating multiple compression curves depending on said customer's market segment";

claim 9 at least the combination including the limitation  
of: "defining a look up table";

claim 16 at least the combination including the limitation  
of: "storing each of said captured videos for a preselected  
time";

claim 17 at least the combination including the limitation  
of: "storing each captured video in a separate file";

claim 18 at least the combination including the limitation  
of: "capturing said data in a raw format and storing said data  
on a hard drive";

claim 22 at least the combination including the limitation  
of: "said central data server receiving said digital data";

claim 24 at least the combination including the limitation  
of: "determining the amount of bandwidth a customer can use";

claim 25 at least the combination including the limitation  
of: "inserting information into a scheduling table on the  
central data server";

claim 31 at least the combination including the limitation  
of: "storing said captured video on a computer at said remote  
site";

claim 32 at least the combination including the limitation  
of: "said data continuously transmitted to said central data  
center";

claim 34 at least the combination including the limitation of: "said artificial intelligence model utilizing a two step analysis";

claim 38 at least the combination including the limitation of: "including a central data server defining a lookup table";

claim 40 at least the combination including the limitation of: "said event resource allocation model managing transmission from a land based satellite dish at said remote site to orbiting satellites and on to said central data center";

claim 41 at least the combination including the limitation of: "said event resource allocation model managing deriving a compression curve for appropriate video compression";

claim 43 at least the combination including the limitation of: "said event resource allocation model utilizing a scheduling table having compression information therein";

claim 47 at least the combination including the limitation of: "utilizing an artificial intelligence model to rank said event";

claim 50 at least the combination including the limitation of: "said central data server utilizing an event resource allocation model", of the instant application.

2. The above limitations find support, for example, at pg. 6-18

of the originally filed specification of the instant application.

3. A practical application for the invention is disclosed on page 1: "The present invention relates to a method for scheduling and usage of satellite bandwidth. More specifically, the system relates to capture of digital video and associated digital data and scheduling the usage of satellite bandwidth to upload compressed video segments to a central data center based on event rankings and logic."

## Conclusion
